

Chem-O-Philia

India's Largest Inter-collegiate Chemical Engineering Quiz and Workshop

With 8 years of experience behind us, this year's Chem-O-Philia is going to be bigger, better and more mentally stimulating than ever. For all those who want to test put their Engineering knowledge to a test, and get win cool cash prizes and more, this is be the best opportunity.

Chem-O-Philia Quiz

If you think this Chemical Engineering Quiz is just about theories and a repetition of your college exams, then you couldn't be more wrong about this. Chem-O-Philia is the national platform for you to prove your knowledge in the eliminations and compete with the best minds at the finale. Make sure you contact us and get to know the centre closest to you to participate and help us make Chem-O-Philia even bigger.

Rules and Regulations

1. Registration for the quiz is done in team of
2. All teams will have to face an elimination round at their respective centres. The top team from each centre will be eligible for the finals on the event day of AZeotropy 2015
3. For all other teams who could unfortunately not make it to the finals or last minute entrants, there is an opportunity namely the Wild-Card Round on the event day. All you have to do is register and show up. Top 3 teams will move on to the finals
4. The Final Round will be conducted on the event day to decide the winners

Prizes

Prizes and Certificates will be given to the top 3 teams of each centre.

Attractive cash prizes and Certificate of Excellence will be awarded to the best 3 teams in the finals.

Chem-O-Philia Workshop

Workshops of simulation softwares are conducted at Chemophilia centres to make students and aware of the upcoming and developed technologies in the field of Chemical Engineering.

Over the past years we have conducted workshops in different places like IITs, NITs, MNITs and LMNITs and many more in association of various software providing companies.

This year we are in association with Ingenious Inc for conducting ChemCAD Workshops.

About CHEMCAD:

CHEMCAD is an integrated suite of intuitive chemical process engineering software. It has the power and tremendous range of capabilities to meet an engineer's chemical process simulation needs, from day-to-day challenges to large, multifaceted projects.
